

## Ramp-Up Rounding Protocol for Students

**Directions:** Working with your lead team, circulate around school on a given day to interview students about their Ramp-Up experiences. Keep it brief—such as under five minutes. It is not necessary to collect students’ names. After rounding is completed, meet as a lead team to determine what your collected data means and how you will respond to it in order to improve your Ramp-Up implementation.

Rounding Question	Student Response
1. What has your experience with using the Ramp-Up to Readiness program in your Advisory been like this year?	
2. From what you have learned in Advisory from Ramp-Up, what has had an impact on you the most? Why?	
3. What other kinds of support might you need to be ready for college?
